Activity Report: - Health Camp

Type of Activity:- Multispecialty health camp (Community outreach health camp)

Place:- Salun PHC

Date:- 11-05-2023

Time:- 9:30 am to 1:00 pm

Description of Activity: -

Objective:- Salun village is the rural field practice area of community medicine department of Dr. N. D. Desai Faculty of Medical Science and Research, Dharamsinh Desai University, Nadiad. During family survey it has been observed that; A segment of village population suffering from various diseases, require specialty services. To extend the specialty health care services to the community, a multi-specialty health camp was organized on 11th May, 2023 at Salun Primary Health Center (PHC).

Services offered: During camp diagnostic and curative services offered free of cost. Specialist from medicine, surgery, pediatrics, obstetrics and gynecology, orthopedics and dermatology provided their services in the camp. Basic laboratory test was conducted at Salun Primary health center.

Process: Mr Prakashbhai Nayak was the camp coordinator. Planning was started 10 days before the camp. Community participation is always a key task to success the any community health services, for that reason a meeting was organized with the village leader, grass root health workers. All information related to health camp e.g time, date, services available at camp was conveyed to the all. Primary health center and Sub center refereed the patient needed higher healthcare services.

Medical Officer (MO) of Salun PHC Dr. Manisha Suthar, RBSK MO Dr. Pooja Jethwa along with the staff members of PHC had actively participated in the camp activities. Taluka Health Officer Dr. Vipul Amin and Taluka Health Visitor Bhavnaben were motivated the community and healthcare worker for the active participation during health camp. The camp was successfully completed at around 1:00 pm. with the consultation of 127 cases.

Impact: The health camp has significant impact on the health of the people in the village. Many people who were unaware of their health issue diagnosed and receive the treatment. It helped to improve the health and wellbeing of population.
